

ADIRONDACK HIGH PEAKS DOG TRAINING CLUB

What Being An AHPDTC Member Is All About

You might want to consider becoming a member of our club! Being a member gives you access to lots of activities. Here are some benefits that active members enjoy:

Discounts on Class Fees: If you are an active member, you will get a half-price discount on class fees plus early access to registration for classes.

Cabin Fever programs: In the winter, when we're not holding classes, we'll sometimes offer programs. These have included such things as presentations related to dog training, as well as informative talks by local veterinarians on topics such as nutrition and first aid.

Fun Day picnic: Our annual picnic allows both humans and dogs to enjoy fun games, good company, and, of course, great food.

Maintenance/Cleaning parties: Sure, the clubhouse and yard need some work to keep them in good condition. We try to make it a social occasion, to make the work go faster!

Informal Training: Active members have access to the clubhouse and field to train. Some of us like meeting up and working our dogs together. It's a great way to keep our dogs socialized between classes, and to get to know some of the other members.

Many of our members are involved in interesting activities with their dogs, and can help introduce you to some new ideas. Some compete in obedience, agility, and rally. Scent work is another popular activity. Some of our dogs are trained as therapy dogs and visit patients in hospitals. Some visit schools, where students can read to them.

So, think about joining us! Please feel free to ask a class instructor, or any other member, if you'd like more information. Also, check out our website (www.ahpdtc.org) and Facebook page!
